

Wireless Technology

A HENKELS & MCCOY Group Company

Henkels & McCoy offers the latest solutions in Wireless Technology combined with more than ninety years of proven telecom expertise.

Throughout the decades of Henkels & McCoy's long history, with all the strides made in advanced telecommunications technology, we have maintained a core belief that our clients—and their customers—expect and deserve nothing less than world-class performance — always. Meeting this goal requires equal measures of innovation and strong fundamentals such as planning, communication, technical expertise, supervision, seamless integration of field operations and administration, and follow-through. A long history of consistent growth is testament to our ability to deliver.

Your goals and objectives are crucial; there is much invested in them and even more at stake in making them real. When you put your trust in Henkels & McCoy, you enlist the expertise of an organization that has been exceeding clients' expectations since 1923. Now, in an era of mergers and acquisitions, we offer the peace of mind, confidence, and reliability that come with experience and a commitment to our own future. An uninterrupted history of family leadership since our inception in 1923 means our commitment to you is far more than professional; it is personal.

Whether a wireless system or a network project involving buildings, towers, antennas, cables or fiber, your investment needs to pay off. Henkels & McCoy delivers real value where it counts.

Henkels & McCoy at a glance...

Henkels & McCoy is one of the largest privately held firms serving the gas, power, communications, and information technology industries. We have more than eighty offices strategically located from New England to Hawaii.

Focus on project management

Henkels & McCoy's formalized Project Management Program represents a companywide commitment to excellence. Formal and on-line training focuses on a variety of skill sets including job tracking, cost management, leadership, client management, and communications skills. Our customers realize the benefits of our efforts through improved efficiency and reduced costs relative to scheduling, material management, self-inspection, reduction of administrative expense through electronic communications, and sophisticated tracking mechanisms.

Commitment to safety

Safety is a value at Henkels & McCoy and represents a commitment to protect our employees, customers, and the public. Based on this philosophy, we have created a corporate safety program that is well known throughout the industry and assures that our safety performance results from continual evaluation and implementation of company and industry wide best practices. In addition to our own initiatives, we will obviously uphold the standards and procedures adopted by our customer.
