

Pipeline Services

A HENKELS & MCCOY Group Company

An Industry Leader

For over half a century, Henkels & McCoy's Pipeline Division has serviced the oil and gas industry with reliable construction and infrastructure across North America. We take great pride in our heritage, strengthened by experience and devoted employees from a wide range of professional backgrounds. Our clients include some of the biggest names in the marketplace, who trust our knowledge, skills, and history.

Commitment to Safety

At Henkels & McCoy, (H&M) safety is interwoven into everything we do. Our system of strong leadership, in-depth training, and safety awareness has resulted in documentable and noteworthy reductions in personal injury rates, property damage, and general liability incidents. These initiatives have garnered recognition from some of the industry's most trusted names, including DuPont Sustainable Solutions.

Equipment

H&M owns one of the largest, most comprehensive fleets of specialized and varied pipeline machinery, support equipment, and tooling, with major maintenance facilities located across the country.

Whenever and wherever we are needed, the Pipeline Division at H&M is always ready to roll out and perform with the highest degree of professionalism and dedication to safety, quality, and efficiency.

PERFORMANCE has built our business...®

Pipeline and Facility Service Offerings

- Pipeline Construction
- Compressor/Pump/Metering Stations
- Facility Modifications
- Shop Fabrication
- Pipeline Integrity Management
- Construction Management

Henkels & McCoy is a leader in all aspects of pipeline construction, having installed everything from gathering lines to 48-inch, cross-country pipelines. We thoroughly respond to public, governmental, and environmental concerns, restore job sites and rights-of-way quickly and efficiently, and adapt our operations to address specific project challenges.

We have grown, and continue to grow, by providing the right mix of service and support to meet the changing needs of the industry. By investing in the finest personnel and resources, H&M works to reduce exposure to risks, control operating costs, and provide our customers with a dedicated and mobile workforce. This allows operators to focus on their primary objective of delivering safe, uninterrupted energy.

With an industry presence that is both local and national in scope, our Pipeline Division has the experience and resources necessary for fostering dynamic, long-term relationships.
